

Ensui Uni is the **#1** Uni that is available in the market today!

**Available only @
Naked Fish's Sushi & Grill, Las Vegas!**

Why Is Ensui Uni the Best?

Freshly cracked Uni goes through the cleaning process and then it is carefully immersed into an exact replica of ocean water and shipped. In doing this, we retain the most natural taste and texture of Uni without using any preservatives or hardening agents. You will not only experience the equivalent enjoyment of cracking the Uni by the shore and eating it right then and there, you will also undoubtedly enjoy the sweetness that will just melt away in your mouth.

---Uni is a rich source of vitamins A,B1, B2, D, E, and zinc---

- *Vitamin B1: -helps recover from fatigue
-stabilizes body and mind
- *Vitamin B2: -metabolizes protein and fat
- *Vitamin E: -known to help prevent aging, and promotes healthy skin
- *Zinc: -prevents diabetes
-prevents a prostate gland obstacle
